

## Oceans Connecting a Nation

### Student Worksheet: Nitrogen Sources

Name: \_\_\_\_\_

#### Class Discussion Questions

1. How might nitrogen fertilizer have any impact on the ocean?
2. What do you think happens to the farm animal waste?
3. How can run-off impact the ocean?
4. Do you think the amount of human sewage created impacts the ocean?
5. How can nitrogen in the atmosphere impact the ocean?

#### Assessment

As a class, discuss the following questions:

1. After reviewing all of the class posters, what common issues can be identified?
2. Are any of the environmental issues related or interrelated? Explain.
3. Nitrogen is a very important nutrient to monitor/measure. How do you think scientists test for or monitor nitrogen?
