

HERITAGE MIDDLE SCHOOL: 2nd PERIOD

FALL 2011

PURPOSE: Are organisms found in pond water the same all over the world?

HYPOTHESIS: If we look at organisms in ponds around the world, the organisms we find will be different because of difference in climate, temperature, food chain animals, terrain and amount of pollution.

ANALYSIS:

We found

2 water beetles

1 water strider

8 daphnia—one with eggs

1 unknown green macroinvertebrate

3 midges

5 water mites

3 snails

1 mayfly
