

Class Bucket Buddies Report  
4th graders of Emanuel Lutheran School  
New London, Wisconsin  
USA

### **Hypothesis**

Our whole class thought that all the animals would be different. Some classmates said that it would be different because of the temperature, and there are different plants around the world by ponds.

### **Names of Pond Creatures We Found**

amphipod or scud  
damselfly nymph  
water flea  
mayfly nymph  
midge larva  
bristle worm  
water fly
