

Creature Count Report
Pittsfield Elementary School
Second Grade: Group 1
May 9, 2012

The entire second grade from Pittsfield Elementary School is participating in the Bucket Buddies Project. We all walked together to White's Pond. Mrs. Mahanes' class of 12 students collected water samples on May 2, 2012. We brought them back to school and poured them into white tubs so we could count and identify the creatures. It was 48 degrees Fahrenheit on a cloudy damp day. We researched creatures on the Internet at the Virtual Pond Dip to identify the creatures. Our list is below.

Team Members -

Team 1: Joseph, Decota, Chase,
Melody

Team 2: Arionna, Dylan, Logan,
Cassie

Team 3: Harvey, Robert,
Brittani, Madison
