

“WHAT'S IN THE WATER?”

POND ORGANISM COUNT

Prepared by
8th graders from Warren County Middle School
Warrenton, NC

HYPOTHESIS: Organisms found in pond water here in NC will be *different* from organisms found in pond water in other states or countries.

1st PERIOD CLASS

ORGANISM	COUNT
Amphipod or Scud	1
Cadisfly Larva	3
Damselfly Nymph	2
Water flea	100+ (too many)
Dragonfly Nymph	3
Mayfly Nymph	5
Midge Larva	2
Mosquito Larva	7
Bristle Worm	2
Snail	1
Cyclop	1
We also identified protists present in the water	
Euglena	2
Volvox	20+ (a lot)
Paramecium	5
Amoeba	1

CONCLUSION:

Based on the results and the comparison with other schools from other state, we found out that we got almost if not exactly the same organisms found in our pond water and in other areas.
